

Question 4

I only did so many for them

We turned down the red roses orders as by the time we had taken off Interflora's costs there wasn't enough money in it

But all order come in late

We don't except the rose's orders , by time they take their percentage, it's not worth us executing the order ,, it's below value

We managed our relay orders so we could focus on our own local trade, so came offline on Thursday afternoon

Only registered with relay last autumn, but only 3 orders came via them.

I have a volume limit

I chose to have the same number of orders as last year

Came offline early as at captivity agreed

The relay company has I feel saturated my delivery location with additional members
